

# LEGISLATIVE UPDATE

*From Mike Morris...*

May 1, 2020

All,

The House passed their version of the state budget this week and the Senate is working on their Committee Substitute today. Their goal is to finish it today in committee and pass it in the Senate Monday, Go to Conference with the House and have it all finished next week. We will see about that. There doesn't appear to be any differences in the MPERS or health care plan. The Senate deleted several vacant positions, but they may get put back in in conference. I will report the Budget outcome next week and anything else that may get done.

Mike Morris
