

LEGISLATIVE UPDATE

From Mike Morris...

April 26, 2021

All,

Last week the Senate Appropriations Committee finished work on the FY 2022 operating budget and it should be debated on the Senate floor this week which will leave a week or so to finish the Conference and iron out any differences between the two chambers. It is always good not having any budget issues to worry about.

HB 701 MOSERS and MPERS clean up bill was heard last week in Senate Health and Pensions and should be voted out this week. It is beginning to look like this is the only bill with much of a chance.

HCB1 the House omnibus bill was voted out of the House Rules Committee last week. I'll keep an eye out for any progress.

As always, you can track all of the retirement related issues at JCPER.org under the legislation tab.

Mike Morris
