

LEGISLATIVE UPDATE

From Mike Morris...

April 3, 2021

All,

The House Pensions Committee did vote Do Pass on House Committee Bill 1 (Pike) which combines four bills in the committee into one. The issues of interest to our members are the MOSERS and MPERS clean up language and a change in the election dates of the active members of the MPERS board so that not all of the elected board members happen in the same year.

There has been little retirement activity so far in the Senate Health and Pensions Committee. I will keep an eye on them in case something does come up.

As always, you can follow all pension related bills at JCPER.org under the weekly legislation tab.

Mike Morris
