

# LEGISLATIVE UPDATE

*From Mike Morris...*

March 29, 2021

All,

Last week the House Pensions Committee Chair Pike introduced HCB1 which is a combination of bills previously presented to the committee. Some of the issues have passed several stages along the way but this omnibus retirement bill pulls them all together. The main issue of interest to us is the "cleanup bill for MOSERS and MPERS.

This bill will have an executive session and be voted out of committee this week. I will follow the progress to see if anything else might be added to it.

As always you can follow all the retirement related bills at [JCPER.org](http://JCPER.org) under the legislation tab.

Mike Morris
