

LEGISLATIVE UPDATE

From Mike Morris...

May 3, 2021

All,

This past week the Senate passed their version of next year's operating budget and the differences between the two bodies must be worked out this week.

HB 700 which is the MOSERS and MPERS cleanup bill was voted out of the Senate Health and Pensions Committee last week and is now #30 on the Senate House Bills for third reading calendar. Senator Onder, the Committee Chair is handling the bill in the Senate. With two weeks left in session, HB 700 should be fine.

As always, you can follow all the retirement related issues at JCPER.org under the legislation tab.

Mike Morris
